

Vegas Plisse pleased roller blind

- ✓ non-invasive installation to window frame
- ✓ Invasive installation to glazing bead or window frame
- ✓ up to 2 independently operated fabrics in one blind
- ✓ Suitable for roof windows
- ✓ Suitable for untypical window shapes

The **Vegas Plisse roller blind** is an interior roller blind allowing you to easily control the amount of natural light and warmth entering a room. It will cover any part of the **window** from above or below.

The **Plisse DUO („day and night“)** version uses **two different, independently operated cloths**. Such design makes it possible to choose a lighter fabric of any aesthetics while at the same time using a heavily shading fabric.

Advanced mechanisms that can be applied to the roller blind **improve its rigidity on larger windows**, magnetically closes the cloth in the open position and allows the Vegas Plisse can even be installed on windows with very unusual shapes, such as round or triangular ones.
