## MODERN LINE DOORS

Designed with performance in mind while presenting beauty, durability and modern style, ARKA Modern Vinyl Doors deliver a wide range of features and options designed to match the styles and vision of your home. The breadth and flexibility of our Modern Vinyl product line makes it an ideal solution from light commercial projects to roll-up-your sleeve residential replacement projects.

ARKA Modern Vinyl Doors deliver a wide range of operation styles. Customize your Doors with any style options: Front entry doors, French doors, tilt n' slide, lift-slide, pivot, panoramic, or bi-folding.

#### FRAME FINISHES

Windows and doors have a major effect on any building facade, with an individual color scheme rendering it truly unique. ARKA has a very broad range of color and design variants, which now includes the KALEIDO COLOR line.

#### KALEIDO PAINT

A series of particularly high-performance paints have been developed through a combination of in-house chemistry and application engineering and longstanding partners from the paint industry.

#### KALEIDO FOIL

The KALEIDO FOIL laminating foils by REHAU provides high-performance structural diversity, from classic wood decors and trendy plain colors to aluminum finishes.

## LUXURY LINE DOORS

ARKA Luxury Line – thermally broken aluminum doors in tandem with dual and triple glaze glass packages deliver outstanding thermal performance and will keep your home cooler in the warm summer months while reducing heating costs in the winter. Despite being light weight, aluminum doors are of very high quality. Their extreme stability and resistance against deformation makes ARKA systems meet the highest American standards.

ARKA Luxury Aluminum Doors deliver a wide range of operation styles. Customize your Doors with any style options ranging from: Front entry doors, pivot, Lift Slide, Bi-fold, tilt n' slide, and French Doors.

ARKA's New Generation Thermal Aluminum uses Reynaers and Aluprof technology to offer the best conditions for new construction and remodeling.

Over 450 different shades and finishes are available: metallic or anodized, matt, gloss or structural RAL-colours, or even special low maintenance and scratch resistant Coatex finish or Wood Decor.

Suppose you want to match the exterior color of your Doors with your façade and choose an inside color that perfectly matches your interior. ARKA can provide the interior and exterior of your profiles in almost every color you can imagine.

The Decoral coating process makes it possible to powder coat our aluminum profiles, with a "wood-grain" or "marble effect" choice of pattern.

## STATUS LINE DOORS

## STATUS LINE DOORS

As one of the oldest building materials, wood provides unparalleled beauty and is a renewable resource. Wood stains and finishes that are available provide unmatched elegance, warmth, and room for customization. It also offers great insulation and energy savings. Whether you choose minimalist birch or distinctive walnut for your build, ARKA will work closely with you to design and craft a beautiful custom Wood Door in any shape for your project.

ARKA's Wood Aluminum Clad Doors use German Engineering technology to offer the best conditions for new construction and remodeling.

### FRAME FINISHES

Windows and doors have a major effect on any building facade, with an individual color scheme rendering it truly unique. ARKA has a very broad range of color and design variants.

### WOOD

Pine has a yellow to red-brown coloring. All of our pine Face wood is of the highest knot-free grade. Oak we offer in a range of finishes.

### WOOD ALUMINUM CLAD

Over 450 different shades and finishes are available: metallic or anodized, matt, gloss or structural RAL-colours, or even special low maintenance and scratch resistant Coatex finish.

ARKA Status line Doors deliver a wide range of operation styles. Customize your doors with any of our style options: BI-folding Doors, French Doors, Front Entry, Bi-Folding, Tilt-Slide, and Lift Slide Doors.

## FRENCH DOOR

Traditional French door configuration – side-by-side doors that are both operable (active) and swing open from the center. There are French in-swing, French out-swing. Some contain grid patterns and some are without. Plus, there are many configurations to consider: a one-panel door is ideal for smaller spaces, two doors that meet in the middle really open up your space, and these can stand alone or be used in conjunction with sidelights for even more natural light or airflow.

We produce Patio French Doors for all types of frame materials: wood, vinyl, aluminum, and fiberglass. Almost all types of sidelights and transoms such as rectangular, arched head, rounded head, and angled head. One or double panels, inswing and outswing openings. Our French Doors have Tilt-Ventilation and Micro Ventilation options.

## TILT TURN DOOR

Tilt and Turn doors are known for their simplicity and practicality. Standard in much of Europe and growing in popularity overseas, tilt and turn functionality allows easy ventilation and continued fresh air without having to leave the entire window wide open.

## GLASS ENTRY DOOR

ARKA Glass Entry doors are characterized by both an elegant appearance and high technical parameters, and also taking into account the available overall dimensions of the structure and possibility to use the doors in larger shop window development, they provide a great deal of freedom in the arrangement of the entrance into a building.

## PANEL ENTRY DOOR

Every building needs a front door to go in and out and to let fresh air pass. Especially with ARKA front doors, you will not only benefit from a modern, good-looking classical product for your home but also enjoy high security, best thermal insulation, and noise reduction. In addition, as they are designed as utterly resistant joinery, our front doors are very easy to maintain. There is absolutely no problem choosing an elegant or joyful color to decorate it, even more, just as little as adding glass elements for visual originality.

## TILT SLIDE DOOR

The new Tilt Slide comfort is suitable for parallel slide or parallel slide & tilt systems made of timber, timber-aluminum, aluminum, and Vinyl. This combines intuitive and convenient operation with a high standard of ease of use.

## LIFT SLIDE DOOR

Lift & Slide custom door systems are a popular choice for opening up large expanses. A system of levers and wheels lifts the panel off the sill enabling movement of large, heavy panels with very little effort.

## BI-FOLDING DOOR

Exterior folding door offers greater flexibility to its users. It enables us to use weather conditions to our advantage and virtually eliminate the barrier between the interior space and its surroundings. Such a door can perfectly combine the interior space (home, restaurant) with the terrace or the outside area that is used seasonally.

We produce Premium Class Bi-Folding Doors for all types of frame materials: wood, vinyl, aluminum, and fiberglass. A wide range of configurations from two to eight panels, inswing, and outswing openings. Our Vinyl and Wood Bi-folding Doors have Tilt -Ventilation and Micro Ventilation options

## SLIDE PATIO DOOR

Sliding doors work well in tight spaces or situations where your furniture is close to the door, whereas swing doors need the area clear for the door to open to the inside or exterior.

We produce Slide Patio Doors for all types of frame materials: vinyl, aluminum, and fiberglass. A wide range of configurations. Slider Patio Doors are the perfect choice for new construction and remodeling your home.

## PANORAMA SWING DOOR

Thanks to the innovative fittings solution, the wings are joined to one or both ends of the element, achieving the maximum size of the clearance without visible partitions or fittings items.

Compression EPDM rubber gaskets provide reliable, long-term sealing in extreme weather conditions and over a wide range of temperatures.

## PIVOT DOOR

Doors are not only functional but are used more and more as high-end interior design elements. ARKA in the timeless beauty of hidden perfection. A pivot door is invisible in its closed position but can have a highly decisive spatial impact when opened. Grounded in the principles of modern architecture, a pivot door emphasizes clean lines and simple shapes.

We produce Premium Pivot Doors in New Generation Thermal Aluminum by Reynaers technology. Glass or panel filling options, inswing or outswing.

## PREMIUM PANEL ENTRY DOOR

## PREMIUM PANEL ENTRY DOOR

ARKA Premium Doors are characterized by premium quality and longevity. The reasons for this are manifold. Function and design are brought to perfection, each trend and all customer wishes are considered in the development of our products.

We produce Premium Panel Doors using New Generation Thermal Aluminum frames.
